

Comprehensive Score:

China introduces national benchmark for Corporate Social Credit scores

Source: Local Credit China websites, Sinolytics research

Accessibility of comprehensive score results across China's local, regional and national standards

Weekly Facts & Figures.

- **Corporate Social Credit System:**
The Comprehensive Score aggregates compliance data into a unified corporate rating.
- **Business Impact:** While not directly punitive, a low score acts as a risk signal for authorities and financial institutions.
- **Data Access:** Only a few regions publish results; some do not share scores with companies at all.

What This Means.

"The Comprehensive Score is becoming the backbone of how authorities assess corporate trustworthiness in China."
