

China's desktop AI: Office agent market is consolidating around the ecosystems of Tencent, Alibaba, and ByteDance.

Leading desktop AI office agent platforms in China by monthly PC-client visits, June 2026

Source: 2026 Q2 China Office Intelligent Agent Platform Market Insights (36kr.com)

Weekly Facts & Figures.

- **WorkBuddy leads the market:** Tencent's WorkBuddy recorded 20.97 million PC-client visits in June 2026, ranking first among China's desktop AI office agent platforms.
- **Three ecosystems dominate:** Platforms from Tencent, Alibaba, and ByteDance generated approximately 56.5 million of 60.6 million measured visits, accounting for around 93% of total traffic.
- **Competition is consolidating:** Tencent, Alibaba, and ByteDance are moving to integrate previously separate AI agent products into broader workplace ecosystems.

What This Means.

"China's office agent race is shifting from launching standalone products to controlling the primary entry point for AI-enabled work."
