

# South-South cooperation: China is reshaping global AI governance

# Weekly Facts & Figures.

- **China's strategy:** Positions itself as AI capacity-builder for the Global South through multilateral frameworks.
- **Contrast to U.S.:** U.S. pursues “race to win” with allies, export controls; China emphasizes inclusivity and influence.
- **Economic angle:** Global South offers vast growth markets, enabling exports of Chinese AI tech and services.

# What This Means.

"MNCs will increasingly need a dual-track AI architecture strategy to remain eligible across blocs."

**Mengying Tao**  
Project Leader
